The Virginia Senate, Thursday, passed a bill appropriating \$15,000 for the purpose of end uraging actual land purchasers and settlers to come to Virginia. The Board of Immigration will have authority to send three commission rate Europe, wo of the three to commission ratio Europe, wo of the three to be natives of Europe, now residents of Viries ashore at Cutterick. The beach wreckers

tells of two drovers from Tennessee who met at Atlanta. One had unules and the other hogs. Both complained of hard times and a dull market, each maintaining that his own stock was hardest to get off. Finally they swapped stock in trade, upon the basis of three pounds of hog for one of mule, and each went on his way rej isting in the belief that he had traded advantageously.

The Fort Gaines Messenger, of Friday morning, says that the river came to a stand there on Thursday morning, and had then risen to within two feet of high water mark in the "Harrison freshet." and higher than at any other time since; that great fears were entertained for the safety of the bridge over the Chattahoochee, but that it was then hoped it would stand with the loss of one pier and some lattice work on the Alabama side, which give way with a loud crash on Wednesday night. It mentions the destruction of several bridges over creeks, stoppage of mills, etc.

If oranges are not golden apples, and the groves of Florida a new Hesperides, there are indications that the culture of this 'ruit is becoming to be v ry profitable. A Palatka paper mentions that Dummitt's grove, which only cost \$1,000 per annum, yielded last year 600,000 oranges, for which the proprietor; e-cived \$1,100; and that with proper case, cived \$(1,000; and that, with proper case, would give \$50,000 to \$75,000 yearly. H L Hard's grove, at Polatas, yields him an income of \$15,000 to \$20,000 per annum. Arthut Ginn's r v at Melonvule of 1,100 trees, pashim \$12,000 to \$15,000 yearly, and is worth \$10,000 M. We are told by Hayden that, in a remote geological period, the entire country drained by the Yellowatone and Columbia Rivers was the cene of volcenic activity as tierce as that of any portion of the globe, and that it formed one vast crater made up of a thousand smaller volcanic vents and fissures, out of which the fluid rock was hurled in unlimited quar tities. DECISIONS SUPREME COURT OF GEORGIA Delivered in Atlanta, Tuesday, March 24, 1874.

Patrick Gormerly vs. Wm. D. Chapman Claim, from Talbot. WARNER, C. J. In August, 1866, Hall made a deed to the plantation on which he then lived to Gormerly. On the 30th July, 1870 the land was ievied on as the property of Hall to satisfy an execution in favor of Chapman against Hall, and was claimed by Gormerly. It does not appear who pointed out the property to be levied on. There is much evidence in the record going to show that the land was conveyed by Hall to Gormerly for the purpose of protecting it from Hall's creditors, and that Gormerly afterwards claimed the land cornerly afterwards claimed the land Gormerly to defraud the ereditors of Hall. At the time the levy was made on the land claimed by Gormerly, Hall had other lands in Talbot county. It was also proved on the In August, 1866, Hall made a deed to the irging the election of Wendell Phillips sa the successor of Mr. Sumper. Frederick

The jury returned a verdict finding the land subject to the execution. It was insisted on the argument that the plaintiff's execution should have been first levied on the other land of Hall before levying it on the property conveyed by him to Gormerly. If Gormerly, the claimant, would have had any requitable right to have compelled the plaintiff to have levied his execution on Hall's other levied his execution on Hall's other levied his execution on Hall's other levied his execution on the Soba and So62 sections of the New Code, the defendant can obtain the same relief in a Court of law as to the rescision of the concrete, as he could have done in a Court of law as to the rescision of the court of law as to the resci other land first, before levying it upon the land conveyed to him, he should have alleged it in his pleadings under our practice to have entitled him to that relief, should be rescrided and set saids on the which was not done in this case. The jury, however, have found by their verdict that the conveyance from Hall to the claimant was made with intent to delay and defraud his creditors, and that such intention was known to the claimant at the time, and there fendant's plea.

Let the judgment of the Court below be is an abundance of evidence in the record to

This was a claim case, and comes before udgment against the defendants. In 1869, a nomestead was set apart to the defendants which was subsequently conveyed by deed to the claimant for a valuable consideration with the approval of the Ordinary. The property was levied on as the property of the defendant in execution. The Court was no legal objection to his stating what he charged the jury in substance th t upon the foregoing statement of facts, the property
was not subject to the execution levied ereon, to which charge the plaintiff ex-pted. This case comes within the ruling of this Court in Gunn vs Thornton decided at the last term, and therefore must be con-troiled by it. The case of Durden, plaintiff in execution vs Walton defendant, and Whittle claimant, in which the same question is involved, was argued in connection with the case first stated. WARNER, C. J.

This case came before the Court below on the trial of a claim to 1,600 pounds of seed cotton which had been levied on by virtue of a distress warrant issued in favor of the splaintiff, which was claimed by Emanuel. It appears from the evidence in the record that on the Saturday before the distress warrant was levied on the cotton, Scott had sold and delivered it to the claimant in payment for a horse. By the written contract between Scott and the plaintiff it is not stated therein, that Scott was to pay a part of the crop made on the land for the rent of it, but that he shall now \$25.00 for the tree of a crail. plaintiff, which was claimed by Emant She recited whiles, Charles are of opinion that the expenditure for public buildings in the present exigency for economy should be cut down with as much severity as any of the other expenditures; but that they ought not to be singled out as the least meritorious of all and wholly denied in a lump.

WARNER O. J. At the time the levy was made on the land claimed by Gormerly, Hall had other lands in Talbot county. It was also proved on the trial of the claim case, by Hall, the defendant in execution, that he had employed Worrell & Forbes to represent his creditors and agreed to give them \$5.0000 to find the land levied on subject to his debts because he wanted his just debts paid. The Court charged the jury 'that if they be lieved from the evidence that Hall made the conve ance of the land in controversy to Gormerly with intent to delay, or to defraud his creditors, and such intention was known to Gormerly at the time, then said deed of conveyance is void as to creditors, and the property at the sime sufficient to pay the debt and it made no difference if Hall did employ counsel in this case and agreed to pay them five hundred dollars to find the property subject." Joel T. Johnson vs. J. H. Lovelace. Claim WARNER, C. J.

This was a claim case, on the trial of which the jury found the land levied on subject to the plaintiff's execution. The case comes before us on exceptions to the charge of the Court to the jury, and to the admission of evidence at the trial over claimant's objection. There was no motion made for a new trial in the Court below. It angears from the evidence in the record that Haac Johnson, the defendant in execution, was in insolvent circumstances, unable to pay all his debts; that in May, 1866, he conveyed the land in controversy by deed to his son, Joel T. John son, the claimant, for \$50.0, which the Johnson, the defendant in execution, remaining in possession of the property conveyed.
